## Profile Summary

A calm, solutions-focused individual with a foundation in software engineering and practical experience in stock control, administration, and technical operations. Known for being adaptable, reliable, and respectful in diverse work environments. I take pride in delivering quality, organized, and efficient work while maintaining professionalism and teamwork.

## Career Objective

Adaptable and reliable, with hands-on stock control experience and a strong interest in administrative, logistics, and technical operations. Organized, punctual, and detail-oriented — comfortable working in an office, warehouse, or on the road. With exposure to IT systems, inventory processes, and client communication, eager to contribute to a company that values teamwork, efficiency, and continuous growth.

## Technical Skills

Languages & Technologies: Python, Django, HTML, CSS, JavaScript, Bootstrap

Tools: Git & GitHub, Visual Studio Code, Microsoft Excel, Word, PowerPoint, SQLite, Canva, Trello, Notion

Additional: Basic knowledge of stock control processes (receiving, rotation, and stock checks)

## Soft Skills

Problem-solving · Adaptability · Team Collaboration · Effective Communication · Time Management · Reliability

## Education

HyperionDev – Software Engineer Certificate (Completed: 2025)

Google Digital Garage – Fundamentals of Digital Marketing (In Progress)

NewGate College – Matric Certificate (2011–2016)

## Work Experience

Meter Reader – City Power Contractor (Jul 2024 – Sep 2025): Recorded electricity meter readings, optimized routes, collaborated with technical teams.

Technician & Theater Setup – Safesight, Center of Advanced Medicine (2024 – Current, Part-Time): Set up optometry rooms, maintained stock.

Delivery Receiver & Shelf Packer – Shoprite (2020 – 2022): Verified deliveries, stocked shelves, assisted with stock accuracy.

Stock Controller & IT Assistant – Photo First (2017 – 2019): Managed stock orders, maintained systems uptime, supported inventory operations.

## **Freelance & Volunteer Experience**

Freelance Web Developer & PC Support (2019–Present): Built websites using HTML, CSS, Django; provided PC troubleshooting; handled design tasks using Canva and PowerPoint.

## **Projects & Applications**

Cleaner Management App · Electricity Usage Estimator · 3D Art Museum Website · Album Magazine App · Public Transport Safety App · Security Staff Scheduler

## **Achievements**

Developed a cleaner scheduling app used in real offices · Maintained 99% computer uptime · Completed full-stack developer program while working part-time · Continuous UI/UX exploration

## **Languages**

English – Fluent · Zulu – Fluent · Xhosa – Fluent

## **Hobbies & Interests**

Building mini web/mobile apps · Exploring UI/UX, 3D visuals & animation · Music mixes & digital art · Gaming analysis · Digital marketing & branding · Community tech support · Photography & storytelling · Tech reviews & documentaries · Brainstorming app/game ideas
